ASTURIAN GOVERNMENT ISSUES TERMS OF REFERENCE FOR ENVIRONMENTAL IMPACT ASSESSMENT

- Black Dragon Gold Corp's Spanish subsidiary Exploraciones Mineras del Cantábrico ("EMC") has received Terms of Reference ("ToR") for the Environmental Impact Assessment ("EIA") from the Asturian Ministry of Environment.
- Issuance of the ToR clarifies the Provincial Government's Environmental requirements for project approval and accelerates the permitting timeframe.

Black Dragon Gold Corp. (ASX:BDG) ('Black Dragon' or the 'Company') is pleased to announce that, following a voluntary request by the Company, the Asturian Ministry of Environment has issued a Terms of Reference for the Environmental Impact Assessment for the Salave Gold Project. Following the submission of the Initial Project Description in July 2019, EMC requested the Terms of Reference to better define the scope of the EIA, reducing both the time and cost for the preparation of the documentation.

During the past few months, EMC has been working on the EIA submission, and following the receipt of the ToR, it will finalise the submission and seek environmental approval for the commencement of construction at Salave.

Paul Cronin, Executive Director commented "*The receipt of the ToR has been the result of a cooperative, patient and respectful dialogue with interested parties to the Salave project. With the scope of the EIA now confirmed, we will be seeking to complete all submissions to the Provincial Government as quickly as possible. It is also worth noting that the issuance of the ToR demonstrates with willingness of the Asturian Government to work with the Company and the local community to ensure that the Salave provides a lasting economic and social benefit.*"

ABOUT BLACK DRAGON GOLD

Black Dragon Gold "BDG" is the 100% owner of one of the largest undeveloped gold projects in Europe, the Salave project. Salave is situated in the North of Spain in the province of Asturias. The Salave project has an updated Measured Mineral Resource of 1.03 million tonnes grading 5.59 g/t Au, containing 0.19 million ounces of gold; an Indicated Mineral Resource of 7.18 million tonnes grading 4.43 g/t Au, containing 1.02 million ounces of gold, plus Inferred Resources totalling 3.12 million tonnes grading 3.47 g/t Au, containing 348,000 ounces of gold.

A full technical report summarising the Mineral Resource estimate completed by CSA Global is available on the company's web site (www.blackdragongold.com) and posted on SEDAR. In addition to the current Mineral Resource, historical exploration work suggests there is the potential for additional mineralisation within Black Dragon's landholdings.

COMPETENT PERSON STATEMENTS

The information in this announcement that relates to exploration results for the Salave Project is based on and fairly represents information and supporting documentation reviewed and approved by Douglas Turnbull, P.Geol. Mr. Turnbull is a consultant to Black Dragon Gold and a Qualified Professional Geoscientist recognized by the Association of Professional Engineers and Geoscientists of British Columbia, a recognized professional organization for the purposes of the JORC code. Mr. Turnbull has provided his prior written consent as to the form and context in which the exploration results and supporting information are presented in this announcement.

The information in this announcement that relates to the mineral resource estimate for the Salave Project was first released by the Company in its news release entitled 'New NI 43-101 Mineral Resource Estimate Increases Resources at Salave' dated 25 October 2018. Black Dragon confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

FORWARD LOOKING STATEMENTS

This news release contains forward-looking statements that are based on the Company's current expectations and estimates. Forward-looking statements are frequently characterised by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate", "suggest", "indicate" and other similar words or statements that certain events or conditions "may" or "will" occur. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual events or results to differ materially from estimated or anticipated events or results implied or expressed in such forward-looking statements. Such factors include, among others: the actual results of current planned exploration activities; changes in project parameters as plans to continue to be refined; possible variations in ore grade or recovery rates; accidents, labour disputes and other risks of the mining industry; delays or any inability in obtaining governmental approvals or financing; and fluctuations in metal prices. There may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise. Forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein.
